Derived from feather meal, dehydrated microbial protein, meat and bone meal, sulfate of potash, bentonite, and molasses.

Information regarding the content and levels of metals in this product is available on the internet at www.aapfco.org/metals

EarthStarr™ is a combination of dehydrated microbial protein, feather meal, meat and bone meal, and sulfate of potash and is an all natural and organic fertilizer. Earthstarr is designed to minimize plant stress during planting or transplanting, and can also be used as a broadcast organic fertilizer for all plants. Liberal use of Earthstarr will provide a comprehensive matrix of organic nutrients.

SUGGESTED APPLICATION RATES:

New plantings or transplants, apply 1 lb. of product per 1" caliper of tree or per 5 gallon container in the hole with the new plant; it can also be mixed with the back-fill. Broadcast in flower or ornamental beds at 10 lb. per 1000sq.ft. If a longer feed is required, up to 15 to 20 lb. will last the season.

For MSDS information and spreader settings visit www.gemstarr.com

Warranty: Warranty of this product implied, is limited to the guaranteed analysis on this label, in as much as misuse is beyond sellers control. Likewise, seller is not liable for any injury to living things, crops, soils, or materials which may result from the use of this product.
